EXPERIENCE

FULLSTACK DEVELOPER (FREELANCE)

Independent / Remote

Jan 2021 – Present

- Managed PostgreSQL databases and developed responsive, user-friendly web interfaces.
- Built RESTful APIs with Node.js and Golang, leveraging PostgreSQL as the primary data store.
- Architected and deployed microservices, including a billing system integrated with GTI, Costa Rica's electronic invoicing platform.
- Automated Slack notifications for real-time tracking of billing activities across organizations.
- Developed modular microservices for billing and user management, ensuring scalability and maintainability.
- Created internal tools and dashboards using React.js and Next.js, enhancing performance and user experience.
- Implemented end-to-end (E2E) testing using Playwright, validating middleware logic and UI interactions.
- Integrated Two-Factor Authentication (2FA) in multi-role login flows using time-based OTP for secure access.
- Enabled real-time push notifications using the Web Push API and Service Workers.
- Actively contributed to agile teams, participating in sprint planning, code reviews, and continuous delivery.

TECHNICAL SKILLS

- | | |
|----------------------------|-------------------------------------|
| • Frontend: | • Backend: |
| • React.js | • Node.js (Express), Go (Gin) |
| • Tools & Testing: | • PostgreSQL |
| • Docker, Git, Postman | • RESTful API Design |
| • Playwright (E2E Testing) | • Microservices, Clean Architecture |
| • Web Push API, Slack API | |
